CANADA'S
#1 Selling

Small Business
Accounting Software[1]

Use the Accounting Solution Developed in Canada for Canadian Businesses

Welcome to Simply Accounting – the Canadian homegrown

accounting solution. Simply Accounting is preferred by more than 400,000 businesses across the country, making it the #1 selling small business accounting software in Canada.[1] And Simply Accounting is recommended by more accountants in Canada than any other small business accounting software.[2] For 20 years we've delivered accounting software that helps our friends and neighbours in Canada successfully grow their businesses.

The more you know about your business, the better you can drive it in the direction you want to go.

Simply Accounting offers comprehensive functionality to meet all your accounting needs, and an ease-of-use that allows you to spend less time on your books and more time on your business. The many reports and analysis tools in Simply Accounting will help you understand all aspects of your company's performance – cash flow, revenue trends, cost trends, which products are selling fastest, which are selling slowly, where your accounts receivable stand, and more.

Look us over.

Then make the right choice for your business.

Spend Less Time on Your Books – More Time on Your Business

Simply Accounting offers a range of products to meet every business need, from home-based businesses to growing companies with multiple locations and/or employees. To order or get more information, call 866-665-2688 or visit www.simplyaccounting.com.

Simply Accounting Basic
Designed for Ease of Use

Simply Accounting Basic 2006 is the full-featured accounting solution for small businesses requiring entry-level accounting, quick setup and ease-of-use, and payroll[7] functionality. No accounting experience is required. Whether you sell products or services, Simply Accounting Basic saves you time and money by helping you perform routine tasks with ease, including preparing invoices, writing cheques, tracking inventory, handling employee payroll, integrating with Microsoft® Excel, and managing customers and suppliers. Take pride in presenting high-quality invoices, business reports and graphs created with Simply Accounting.
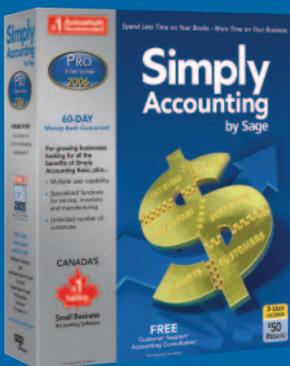

Simply Accounting Pro
Designed for Growing Businesses

Simply Accounting Pro 2006 is the accounting solution for growing businesses requiring multi-user[5] capability, specialized functions for service, inventory and manufacturing companies, and unlimited currencies. Allow multiple users to simultaneously access, update and analyze data in real time. Efficiently track and bill time with flexible billing options and seamless payroll[7] integration. Use powerful search capabilities to find exactly what you are looking for in your records and transactions. Create a virtually unlimited number of custom reports using Microsoft Word and Excel. The two-user license enables two users to enter and access data simultaneously. With additional licenses, Pro can handle up to six users concurrently.

We recently switched to Simply Accounting from a manual system. Our Office Manager, who is inexperienced with computers, quickly learned to perform all tasks. He can't believe how much easier it is. And now we have relevant day-to-day information instead of waiting months to know how we are doing."

Simply Accounting Pro with Payroll Services 2006 gives businesses with payroll needs all the benefits of Pro plus payroll tax updates[8] and automatic calculations – at one low price. As a business owner or manager, you know how important it is to be payroll tax compliant. Simply Accounting Pro with Payroll Services provides you with payroll tax updates from the provincial or federal government prior to the implementation deadline. Your employees' earnings, deductions, and payroll taxes will automatically be calculated within Simply Accounting to ensure accurate payroll withholding and reporting. Plus, during your subscription you will automatically receive every new version of Simply Accounting, ensuring your business is always running on the most up-to-date software available. (Limited retail availability.)

Simply Accounting Premium
Designed for Advanced Accounting

Simply Accounting Premium 2006 is the comprehensive accounting solution for businesses wanting to more effectively manage growing operations, especially those with multiple companies or locations. Customized, industry-specific accounting and analysis tools help owners and operators make better business decisions. Custom reports are available for construction, retail, professional services, property management and accommodations. Custom reports can be created using Crystal Reports® for Simply Accounting (included) and Microsoft Word and Excel. Inventory can be stored, transferred and tracked in multiple locations. The two-user license enables two users to enter and access data simultaneously. With additional licenses, Premium can handle up to six users concurrently.[5]

NEW! Simply Accounting–Accountants' Edition
Designed for Accountants

Simply Accounting–Accountants' Edition 2006 is a comprehensive, multi-user[5] accounting solution for accountants supporting Simply Accounting clients. It is fully compatible with all editions of Simply Accounting 2006. It allows accountants to work simultaneously with clients so they don't have to stop entering information while the accountant is creating entries. The Accountants' Edition general journal entries can be easily merged into the client's data. Accountants will benefit from enhanced importing into the general journal, including importing project allocation information and comments for detail lines. The two-user license allows two users to enter and access data simultaneously. With additional licenses, Accountants' Edition can handle up to six
users concurrently.
